NEW YORK	NY	10038

This Form 99 is being filed in response to the Federal Election Commission's May 26, 2020 Request for Additional Information (RFAI) pertaining to the Amended year-end report (12/01/2019 - 12/31/2019) received by the Commission on 02/19/2020.

The amended report disclosed an additional \$15,000 in receipts that were not initially disclosed on the original report. These receipts were contributions made via credit card that were captured for settlement by the credit card processor before the close of the year, but which had not yet posted to the bank account (in other words, 'deposits in transit'). The original report was reconciled against the December, 2019 bank statement, which, accordingly, did not yet show these additional receipts. Upon learning of these contributions we swiftly amended the 2019 year-end report to properly include these contributions. We have incorporated a review of pending credit card settlements into our compliance practice.
